

C 280

C Series Architectural Speakers

The **C 280** is the largest of the in-wall speakers with an 8" rigid Kevlar woofer for superb bass, and an aluminum dome tweeter for silky highs plus an attenuation switch on the front panel to adjust the sound to your liking. Whether it's background music or serious listening, the C 280 will bring your home, theater or office to life with uncompromising sound quality, virtually invisible installation and exceptional value. Enjoy!

Features

- 8" extended throw Kevlar woofer with rubber surround, phase plug, vented Strontium magnet & dust screen
- 1" aluminum dome tweeter utilizing dual chamber design for smoother response, and ferrofluid damping/cooling
- Three position level control for treble
- 12 dB/octave crossover network with premium parts
- 24k gold "Constant Pressure" 10 AWG push terminals
- Knockout plug for installing infrared receiver
- Acoustically transparent, fine mesh grill with paint shield
- Woven dust screen to protect woofer from in-wall debris
- Six-point "dog-leg" mounting system
- Optional NCK-8M New Construction Kit
- Parasound's 10 years parts, 5 years labor warranty
